APLD California Chapter 2017 Platinum and Gold SPONSOR TESTIMONIALS

Here's what our members think about our Platinum & Gold sponsors:

APLD CA 2017 Platinum Sponsor

I've become a huge fan of **Rain Bird** products in recent years. They have come out with some great new products that make designing and installing efficient irrigation so much easier. I especially love the QF Dripline Header and the XF Series Dripline. They have so many helpful tools on their website for designers.

With folks like **C.J. Collins** assisting designers with their projects and specifications, Rain Bird is truly a great company to work with.

- **Mary Fisher**, APLD, Mary Fisher Garden Design

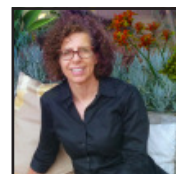

APLD CA 2017 Gold Sponsors

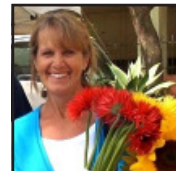

I've been very happy working with **Bamboo Pipeline**. They've been able to source all or most of my plant materials and I've been really happy with all the plants that I've been getting. They are healthy, mature and beautiful. I used to have to spend hours and hours sourcing my plants from different nurseries to get what I wanted, but **Bamboo Pipeline** has been a one-stop shop which saves me so much time! Their representatives are super helpful, flexible and friendly.

- **Debbie Gliksmen**, APLD, Urban Oasis Landscape Design

Belgard products are a dream to work with because they are super stable. The sizes are consistent, the material is great quality and the colors work well with landscapes. The variety of walls and patio pavers works well together, especially the edger pieces.

- **Leigh Benner**, Dancing Leaf Designs

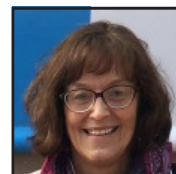

I call **Brickyard Building Materials** when I need pricing and availability information on concrete paver and wall block products. I always receive prompt and straightforward service. They also host free DIY classes, which is a great resource for clients on a budget.

- **Bernadette Balics**, Ecological Landscape Design

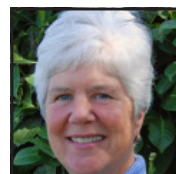

Devil Mountain Wholesale Nursery has a wonderful selection of plants, with an easy to use website. I design using their updated lists and my contractor (Imagine Landscapes) orders from the list I print out, and they deliver from San Ramon, Sacramento & Petaluma. Great nursery, helpful staff!!

- **Teri Enright**, Enright Sustainable Outdoor Living

I started buying from **Emerisa Gardens** in the mid 90's while working in a nursery in Los Altos. Emerisa had the best quality and variety of four-inch plants available. They still do! A quick trip to their Santa Rosa demonstration gardens and growing grounds will convince you they are the best!

- **Patricia St. John**, APLD, St. John Landscapes

I can always count on **Green Acres Nursery** for my design business. I'm never disappointed with the beautiful selection of top-quality plant material appropriate to our climate conditions. They provide excellent customer service both in person and on the phone, and they ensure that their staff keeps up with continuing education and is knowledgeable in all facets of the garden industry. I appreciate that I can confidently send a client here and know they will be served well.

- **Tina Henricksen**, Tina Henricksen Garden Design

APLD California Members Love Our Sponsors!

Sponsorship is the primary source of operating income for the APLD CA Chapter & Districts. Please do business with our sponsors whenever possible. And when you do, please mention that you are an APLD member so our sponsors can better appreciate the value of their investment.

The 2018 APLD CA sponsorship campaign runs from December 1, 2017 to February 28, 2018. We are always looking for quality businesses to partner with. For more information please visit our sponsors page on our website at apldca.org or contact our sponsorship chair, Laura Morton at sponsorship@apldca.org.

APLD CA 2017 Gold Sponsors (continued)

The **G3, Green Gardens Group** has been a hugely motivating force propelling the members of APLD forward into a new era of knowledge. Teaching us about the Watershed Approach has allowed us to help heal the earth one garden at a time. The world truly needs thought leaders like **Pamela Berstler** and her group. Leaders who are willing to share their knowledge and the knowledge of other organizations that they have sought out to help us all become better stewards of the earth.

- **Julie Molinare**, The Grass Is Always Greener Landscape Designs

From hardscape selections, water features to soil amendments for healthy living soils; **Lyngso Garden Materials** offers a wide range of top notch products for the landscape. Their many clinics are valuable resources for me as a designer and for my hands-on clients who are interested in learning about and doing more in their gardens.

- **Tina Roushall**, Roushall Gardens

What I especially appreciate about **Mountain States Wholesale Nursery** is the customer support and education they provide to designers. We get a wide selection of gorgeous and climate appropriate plants to choose from with very specific information that makes a complex design process easier. It allows me to try new cultivars and feel confident that they will perform, and my clients are thrilled with the results! Mountain States is helping move the industry in the direction to address important climate issues and that is invaluable.

- **Nina Mullen**, Mullen Designs

Pacific Nurseries has been a great plant resource for our projects in the San Francisco Area. We specially appreciate the effort they put in getting specific plants we need that may not be available in those moments at the nursery. We feel welcomed when we walk around browsing for plants, and the whole staff is very friendly and helpful.

- **Oriol Royo Obregon and Yael Ehrenberg Hellion**, Verde360sf

Peninsula Building Material's showroom is a great one-stop viewing room to see their incredible range of stone products. Whether it's for inspiration or to narrow choices down, I always start my search there, then I zip over to their stone yard to pick up samples. Great resource - great service.

- **Janet Enright**, Janet Enright & Associates

I can't say enough wonderful things about the **Tuffy Plant Collection** plants. I have put Dianella 'Little Rev', Callistemon 'Better John' and Westringia 'Low Horizon' through some really rough trials in my own garden and all of these plants are going strong 3 years later. There have been plenty of hot, dry stretches between watering cycles and these plants are all alive. Knowing you can count on certain plants is a must in this industry and I have grown to trust in them. When they say "high impact and low maintenance", you can really rely on these plants for your designs!

- **Tracey Grillo**, Botaniscape by Tracey

Urban Tree Farm Nursery is a great resource, especially for high quality fruit trees and other difficult to source specimens. We have done business with them for many years.

- **Virginia O'Connell**, O'Connell Landscape
